Summary

- **Passionate Frontend Developer** with strong skills in building responsive and dynamic web applications using **React.js**, **Next.js**, **HTML**, **CSS**, and **JavaScript**.
- Experienced in developing full-stack projects using **Node.js**, **Express**, and **MongoDB** for backend services.
- Created a fully functional e-commerce website, **FashionNest**, demonstrating expertise in frontend development, API integration, and user experience design.
- Currently expanding knowledge in **advanced Next.js** and **backend optimization**.
Actively seeking **internship opportunities** to further enhance skills and contribute to real-world projects.

Experience

Full-Stack Developer | Freelancer | Present

- **FashionNest — Full-Stack E-commerce Website**
Developed a fully functional e-commerce platform with **user authentication**, **shopping cart**, and **order management** features using **React.js**, **Node.js**, **Express**, and **MongoDB**. [GitHub](#)
- **React Store — Interactive Frontend Store**
Built a **React.js-based real e-commerce store frontend**, allowing users to browse products, add items to the cart, and experience smooth, responsive interactions. Focused on delivering a **real-world shopping experience** through optimized state management and UI design. [GitHub](#)
- **Backend Performance Optimization**
Optimized backend services by developing **custom Express middleware**, implementing **caching** strategies, and improving **MongoDB queries** for better API performance. [GitHub](#)
- **Explore Tour — Node.js and Pug-Based Travel Website** Built a dynamic tour booking website using **Node.js**, **Express.js**, and **Pug templating engine**. Designed server-rendered pages for browsing and booking tours, implemented user authentication, and structured the backend with **MongoDB** for data management. Focused on delivering a complete full-stack experience without using a frontend framework. [GitHub](#)
